

Hunger Free KIDS Fund 2020

Hunger Impact Partners is a public charity that enables grassroots organizations, schools, child care centers, and youth programs to address the issue of child hunger in Minnesota. We want food insecure kids to have access to nutritious meals throughout the day, 365 days a year.

During the Covid-19 pandemic, the needs are especially great and urgent. Minnesota children are missing meals. In response, communities and school districts are rallying to provide meals to children, and our mobile app – [Free Meals for Kids](#) are helping families and children access them.

The new challenge is to make sure Minnesota kids can stay hunger free. Please donate to our Hunger Free KIDS Fund so thousands of schools

and community non-profits can continue to serve our insecure children.

The Hunger-Free KIDS Fund offers an excellent way to motivate employee giving and inspire company-wide campaigns. Through the Fund, corporations, retailers, merchants, and cultural organizations can support meals for at-risk kids in their communities.

Individuals and organizations contributing to the Hunger Free KIDS Fund help to ensure that healthy food reaches kids where they live, learn and play.
